

DATA CENTER

BIG DATA LIVES HERE

Your business has big data needs. We can support them! Our DC1 state-of-the-art data center offers dual redundant commercial power feeds, the lowest power cost in the region and multiple telecommunication service providers with diverse paths into the center. DC1 is strategically located within 15 minutes of West Virginia International Yeager Airport and is adjacent to three interstate highways.

alpha TECHNOLOGIES

DC1 FEATURES

SECURE

On site security team, video surveillance, and independent multi-level access controls throughout the data center are monitored 24 hours a day.

COMPLIANT

More than 20 years of experience providing managed network services and maintaining three major compliance certifications: HIPAA, SOC, and PCI.

SUSTAINABLE

Redundant commercial power feeds with battery and backup diesel generators to guarantee server availability.

CONNECTED

Multiple telecommunications service providers with diverse paths into DC1 ensure maximum reachability from remote locations to your servers.
