Call us today to experience the best flexible and affordable voice service that meets your business needs.

## alpha TECHNOLOGIES

### VOICE SERVICE FEATURES:

#### ALPHA VOICE LINK

Voice lines only. SIP lines are digital pathways used for making phone calls over the Internet, offering flexibility and cost-effectiveness compared to traditional phone lines.

#### ALPHA VOICE FAX

With Alpha Voice Fax you can send and receive documents from your PC and your mobile phone without the need for a dedicated fax machine.

#### ALPHA VOICE

We have telephones that will suit the needs of many diverse business types and volumes through Yealink. This includes the Unified pieces to keep your team connected like alpha Voice portal and mobile app!

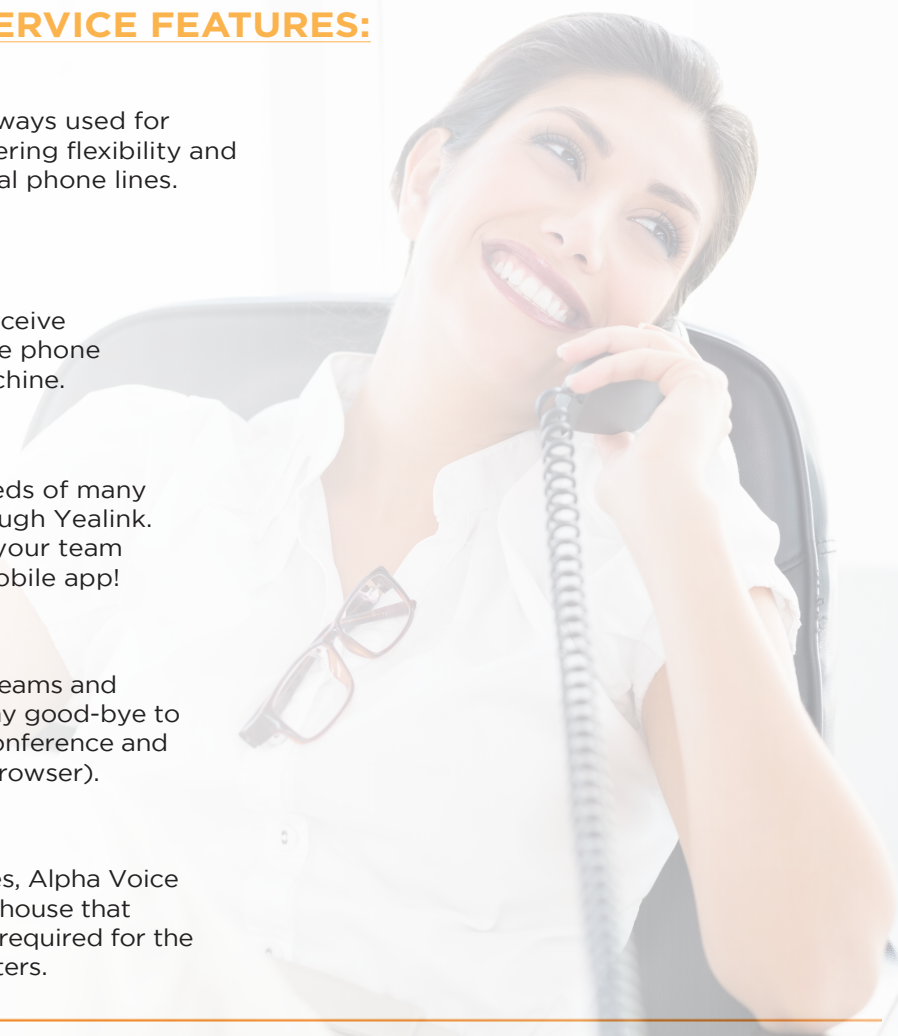

#### ALPHA VOICE CONNECT

Collaboration is the key that drives most teams and businesses. With Alpha Voice Connect, say good-bye to Cisco WebEx and hello to superb video conference and calling(Only works with Google Chrome browser).

#### ALPHA VOICE CONTACT

In a time when customer service dominates, Alpha Voice Contact emerges as the telephony power house that supplies the essential tools and resources required for the effective operation of large scale Call Centers.
